The Knocker's Prayer

Lord please dont let this town it comes to the pinch he can stand grow. I've been here thirty years better than any other class. and during that time I have fought Food is the first necessity, and he can feed himself. He can raise all that he and his family need, but if he raises no more than he needs the rest of the people will starve. The farmer's surplus supplies the world—suppose the surplus fails? The farmer can raise the material made the policemen make the boys stop playing ball on my vacant lot. Whenever I saw anyone prospering or enjoying himself, I have started a rewill go maked. It is the farmer's surform to kill the business or spoil the material that clothes the world plus material that clothes the world— fun. I do not want the young folks to stay in this town and I do all I to stay in this town and I do all I can by law, rule and ordinance to dive his own fuelt. He can raise his own wood; he can burn corn cobs and even corn if he must, but what will become of the railroads when the farmer neither buys nor sells?

What will become of the packers when they have no meat to pack? And what will become of the grain gamblers when there is no market grain to stay in this town and I do all I can by law, rule and ordinance to drive them away. It pains me, O Lord, to see that in spite of my knocking this town is beginning to grow. Some day I fear I will be called on to put down sidewalks in front of my property and who konws but I may have to help keep up the streets that run by my premises This, Lord, would be more than I could bear. It would cost me money, though all I have to gamble on? What will become of cost me money, though all I have the little stores when the farmers made his been made right here in tease to trade? And what will the this-town. Then, too, more people ers do when the little stores might come if the town begins to And what will the manufac- grow, which would cause me to lose three's do when the whoesalers go some of my pull. I ask, therefore, to business? And what will the keep this town at a standstill, that cler's in the stores, the workers in I may continue to be chief. Amen.-

Battle Over Four. Hours

Commerce collected considerable data on city planning in other cities. A few weeks ago Mr. E. S. Draper, of Charlotte, talked to the Kiwanis club o nthe subject of city planning.

As the subject is studied and talked, our people appreciate more fully the need of a city plan for High Point. At the same time they realize to a greater extent that to put a city plan of the memorable contest, which leated to make the contest of the memorable contest. / for four hours and seven minutes and

Point's way of doing things, it will be solved at the right time and in the right manner.

The game began with free hitting and erratic fielding, neither Atkinson nor Day, the two starting pitchers, The kind of plan which our town should adopt is a matter requiring much deliberation. It might make a devnite outline for growth for the next twenty or fifty years, with little or no changes in hings as they are at present. Or it might make considerable changes in things as they now lare.

stand to its feet.

The game was made the more remarkable by the fact that it was a Theq uestion of Zoning, or grouping free hitting contest throughout, the

scope of plans adopted by some cities. Atkinson and Day started off equaldential property from the ill effects of frames, but Danville had the best of pacing industries of stores in too it on opportune errors and scored five close proximity. It also regulates the tallies in the first frame, a lead that height of buildings and the per cent of the Pointers did not overcome until the loss that they may cover, to the the seventh, when they forged ahead, end that there is plenty of air and only to have the locals knot the count in the eighth.
